Linkedin | Github
Cairo, Egypt 29-9-2000

Back-End Developer and Pre-Master's student in Computer Science, skilled in Java, Spring Boot, and problem-solving. Focused on developing reliable backend services and continuously improving technical skills.

EDUCATION

Ain Shams University

- *Bachelor Degree in Computer Science with very good grade* — *2018 - 2022*
- *Pre-Master's in Computer Science* — *2025 - present*

WORK EXPERIENCE

PioneersDX

- *Software Developer* — *Jan 24 - Oct 25*
  - *Contributed to the development and maintenance of company websites and digital transformation tools.*
  - *Assisted in debugging, fixing website issues, and performing content updates.*
  - *Supported the deployment and backup processes for client projects.*

Valeo Testing Academy

- *Software Testing Trainee* — *Jan 23 - Feb 23*
  - *Gained hands-on experience in software testing fundamentals, including manual and automated testing.*
  - *Learned to design and execute test cases to ensure software quality and functionality.*
  - *Collaborated in team-based testing exercises simulating real-world QA scenarios.*

PROJECTS

- **3D Reconstruction for Human Body** – Graduation project **(with Excellent degree)** using deep learning to reconstruct 3D human body shapes from single RGB images.

Tech Stack: Python, PyTorch, OpenCV, NumPy

- **TripTrekker** – Microservices-based travel booking system for flights and hotels with authentication, caching, async messaging, and centralized logging.

Tech Stack: Java, Spring Boot, Spring Cloud, Spring Testing, Kafka, Redis, Keycloak, PostgreSQL, Docker, GitHub Actions, ELK Stack

- **BudgetBlitz** – Microservices-style expense tracking system handling user budgets and categories with manual authentication and ELK-based logging.

Tech Stack: Java, Spring Boot, Spring Security, Spring Testing, Kafka, Redis, PostgreSQL, Docker, GitHub Actions, ELK Stack

- **School Management System** – Backend RESTful API for managing students, teachers, and courses with full CRUD operations, secure authentication, and CI/CD integration.

Tech Stack: Java, Spring Boot, Spring Security, Spring Testing, MySQL, Docker, GitHub Actions, ELK Stack

- **MO Chess** – Console-based chess game for two players using OOP and design patterns.

Tech Stack: Java(OOP , Design pattern, Exception Handling, Regex API, Collections, Generics)

- **Maze Runner** – Maze-solving application implementing AI algorithms (BFS, DFS, A*, Dijkstra, Best-First Search).

Tech Stack: C++

- **SecurityPackage** –C# project implementing encryption algorithms like AES and DES from scratch to demonstrate practical cryptography skills.

Tech Stack: C#

SKILLS

- ***Programming Languages:*** *Java (Java 8 features: Streams, Lambda expressions, Optional, Functional Interfaces), C#, Python, C++*
- ***Frameworks & Technologies:*** *Spring Boot, Spring MVC, Spring Security, Spring Data JPA, Spring Cloud (Eureka, Gateway), Hibernate, Spring Testing, JUnit, Mockito, OAuth2, JWT, Postman*
- ***Architecture & Design:*** *Microservices, RESTful APIs, Layered Architecture, OOP, Design Patterns, SOLID Principles, Generics, Collections, Exception Handling*
- ***Databases:*** *PostgreSQL, MySQL, Oracle, MongoDB (NoSQL)*
- ***DevOps & Tools****: Linux, Docker, Docker Compose, Git, GitHub Actions (CI/CD), Maven, Docker Hub, Redis, Kafka, Postman, Keycloak, ELK Stack (Elasticsearch, Logstash, Kibana)*
- ***Other Skills:*** *Problem Solving, Data Structures & Algorithms, Debugging*
- ***English*** *| Professional C1*
- ***Arabic*** *| Native*

CERTIFICATIONS

- *Java Enterprise Edition Specialization – Coursera*
- *Spring Framework Specialization – Coursera*
- *Machine Learning Cross-Skilling Nanodegree Program – Udacity*
- *Advanced Data Analysis Nanodegree Program – Udacity*
- *Neural Networks and Deep Learning – DeepLearning.AI*
- *Data Analysis Professional Nanodegree Program – Udacity*
- *C Programming with Linux – edX*
